

PRODUCT DATA
3-A SANITARY COMPOUNDS
STANDARD 18-03

The organization known as 3-A Sanitary Standards, Inc. (3-A SSI) formulates sanitary standards and accepted practices for the sanitary design, fabrication, installation and cleanability of dairy and food equipment or systems used to handle, process and package consumable products where a high degree of sanitation is required. These sanitary standards and accepted practices are developed through the cooperative efforts of industry experts. 3-A Sanitary Standards provide material specifications, design criteria and other necessary information for equipment types to satisfy public health concerns.

Precision Associates, has been issued authorization number 1384 by 3-A SSI stating that the PAI compounds listed below comply with the 3-A Sanitary Standard 18-03.
