

Custom Parts

If you need a special
O-Ring, Lip Seal,
Gasket,
Rubber-to-Metal
or other custom shape,
we'll design and
manufacture just what your
situation requires.

Our In-House Tooling facility
allows us to produce molds quickly
and economically ...
so a custom solution can be
delivered almost as quickly as one
of our many standard solutions.

We can produce a mold directly to your specifications and drawings.
Or, our engineers can work with you to learn your specific needs and then propose
a number of alternative solutions from which to choose.

Most likely, one of our many compounds will be exactly what you need.
But if it isn't, we'll develop a compound especially for you.
