

PRODUCT DATA
FDA Compounds

PAI produces materials that we label FDA compounds. The FDA does not specifically approve rubber compounds. The FDA, in Title 21, Part 177.2600 of the Code of Federal Regulations, specifies rubber compound ingredients that are considered to be non-toxic and non-carcinogenic when used in the amounts specified. Compounds must also pass the extraction tests outlined by the FDA.

Materials meeting these requirements are said to “meet the requirements of the FDA”. Each of the compounds shown here is formulated with materials sanctioned under the FDA Code of Federal Regulations, Title 21, Part 177.2600.

Contact PAI for FDA compliant rubber materials as requirements may change before documents or websites can be updated.

Compound	Polymer	Color	Duro
3425	NBR	White	40
3544	NBR	Black	50
3625	NBR	White	60
3641	NBR	Black	60
3644	NBR	Black	60
3765	NBR	White	70

info@PrecisionAssoc.com

Precision Associates' FDA compliant compounds are available in these products:

- ***Standard O-Rings***
- ***Special Size O-Rings***
- ***U-Cups***
- ***V-Rings***
- ***Rod Wipers***
- ***X-Rings***
- ***8-Rings***
- ***Multiseal[®] Low Friction Seals***
- ***Kurv-Bak[™] Hard Rubber Backup Rings***
- ***Rubber Balls***
- ***Medical Seals***
- ***Custom Molded Rubber Components***

Precision Associates, Inc. is a leader in providing high-performance, consistent sealing solutions and precision-molded rubber products that exceed requirements in diverse industries.

- Over 1,000 different compounds
- More than 2,700 O-Ring Sizes
- On-Site Mold Shop
- Made in the USA
- 99% on-time delivery
- ISO 14644-1 Class 7 clean room
